

FACTOR

The Success Of A Private/Public Collaboration

From its inception in 1982, FACTOR has been providing funding to assist with the production of sound recordings. The intent of these recordings is to provide Canada's private radio broadcasters with product suitable for radio airplay that will assist them in meeting their Cancon requirements. This still remains the primary focus of FACTOR's programs.

With the involvement of the Department of Canadian Heritage and the additional funding being provided to FACTOR through the 6% acquisition fee, resulting from change of ownership of a radio station, FACTOR has been able to expand its support to include the marketing and promotion for the sound recordings for which FACTOR provides funding. In totality since its inception FACTOR has offered \$98.4 million in funding to the Canadian music industry. \$33.5 or 34% of the funds offered were provided by Canada's private radio broadcasters.

FACTOR has provided \$84,334,079 in funding to support the production, marketing and promotion of sound recordings for Canadian artists recording projects that have been commercial released. These projects have combined sales of 29.7 million copies worldwide with a retail value in excess of \$670 million.

FACTOR also has a concern about the development of new up and coming talent and to that end has provided from virtually the beginning a Professional Demo Grant Program to encourage new artists to go into professional facilities and create music. FACTOR has provided \$3,204,578 in funding to support demos for up and coming artists over the years.

FACTOR also has programs that provide assistance to labels, managers and distributors in exploiting nationally and internationally their artist(s). Funding is also provided to assist with those business development initiatives that support the developing of the careers of Canadian artists. These includes things such as the Juno Awards, The East Coast Music Awards, The Western Canadian Music Alliance, Canadian Music Week, The Canadian Radio Music Awards to name a few. FACTOR has provided \$10,878,433 in funding to support these types of initiatives over the years. Funding for these initiatives is predominantly provided through Canadian Heritage's Canada Music Fund.

The funding offered by province breaks down as follows:

British Columbia	18,266,341
Alberta	2,846,453
Saskatchewan	923,314
Manitoba	2,853,245
Ontario	48,551,084
Quebec	16,003,521
Nova Scotia	5,331,032
New Brunswick	1,064,525
PEI	689,421
Nfld & Lab	676,226
Yukon & NWT	712,024
Outside Canada	499,904

This booklet contains the names of those artists for which funding was requested to assist with the production and or marketing and promotion of sound recordings. It is reported on based on the **province of the applicant**. For this reason some artists names will appear in several provinces. This is a result of their relocating or working with a company or individual that resides in a difference province.

British Columbia

A total of \$18,266,341 has been invested in projects applied for from the province of British Columbia. It breaks down as follows:

- **\$566,139** was invested in the funding of demos projects for artists;
- **\$1,186,526** was invested in funding business development initiatives for labels/ managers and associations; and
- **\$16,513,676** for the production, marketing and promotion of sound recording projects for the following artists:
