Program Intent

This program is intended to provide support towards the professionalization and integration of early career Canadian artists into the music industry.

Program Overview

1. The Artist Development program offers up to \$5,000 for 75% of eligible expenses as an investment toward a year of artist development activities such as sound recording, touring, showcasing, video content production, and marketing. This means you must incur at least \$6,667 in eligible expenses to reach the maximum amount.
2. Funding is paid at 75% of offer upon applicant's acceptance of the General Agreement.
3. Funding for this program is provided by Canada's Private Broadcasters and the Department of Canadian Heritage via the Canada Music Fund's Individual Initiatives component.

Application Deadline

New applications to this program can be created and submitted as of **February 3, 2025**, and due no later than **March 6, 2025, at 5:00pm ET** for the 2025-2026 fiscal year. Incomplete applications will not be retained in the system afterwards.

If you experience technical difficulties which prevent you from submitting your application, you must contact FACTOR by email, with accompanying screenshot illustrating the issue, prior to 5:00pm ET on the deadline date. An application cannot be re-submitted if a report is filed after the deadline.

Who Can Apply

Only artists rated General may apply.

4. Artists may apply to only one juried program (Artist Development, Juried Sound Recording: Single/EP, or Juried Sound Recording: Album) being offered for the 2025-2026 fiscal year (April 1 – March 31).
5. The Artist cannot be a previous recipient of Artist Development funding.
6. Artists must have commercially released at least one track prior to application but are not eligible to apply if they have commercially released music more than three years prior to application date or have received funding of more than \$10,000 from FACTOR in the past.
7. Applicants may not be artists signed to companies funded by FACTOR or Musicaction in the company programs already supporting those activities.
8. The eligibility criteria in points 4 through 7 include as a member of bands other than current applicant.

9. Artist managers, producers, and publishers may fill out the application on behalf of an artist; however, the artist must be the named Applicant and they must incur the costs directly. Costs may not be incurred by the manager, producer, or publisher and then charged back to the artist.
10. Record labels may not apply to this program on behalf of an artist. Artists signed to a record label may apply; however, the artist must incur all costs directly. Costs may not be incurred by the record label and then charged back to the artist.
11. Applicants under 18 years of age must submit a signed [Parent or Legal Guardian Consent Form](#) with the application.
12. Professional Songwriters are not eligible to apply to this program; proceed to [Songwriter Development](#).
13. Francophone artists who are recording primarily in French and primarily developing their careers in a French-language market should apply to [Musicaction](#). Francophone artists may apply to program if the project is explicitly intended for the English-language market.

How to Apply

14. Ensure your Artist and Applicant profiles are complete and current prior to creating your Artist Development application in the [FACTOR online system](#). First-time applicants will find instructions on creating/sharing profiles and submissions at the [How to Apply page on the FACTOR website](#).
15. As part of your application, you must submit
 - a) Current audience information
 - b) Artist bio and genre
 - c) Project start date
 - d) An artist development plan: in 5,000 characters or less, detail where you are in your career and provide an overall strategy/plan for growth in the coming year, describing how the development activities will help you achieve your artist development goals.
 - e) One assessment track, which should:
 - i. Be a new, recently recorded, original song or composition that has either never been commercially released or was released within three months prior to application. For those in the jazz or classical genre, a new arrangement of a work previously recorded and released by another artist(s) may be allowed with FACTOR pre-approval.
 - ii. Be uploaded in MP3 format, along with lyrics if applicable;
 - iii. Meet [MAPL requirements](#) for Canadian content; and
 - f) Estimate how much you will spend on development activities (recording, marketing, touring, showcasing and video production) in the coming year. Include all spends, regardless of whether you hope to subsidize them with FACTOR funding.
 - g) Total request
16. You may provide additional material, such as letters of support, tour dates, photos, and video links. Up to five documents can be uploaded under Additional Information in the Component Information page of the application.
17. It is your responsibility to ensure all mandatory documents have been uploaded prior to submitting the application.
18. **Other funding sources:** Applicants to every FACTOR program must declare any other public funding received or expected to be received toward the same project costs they are claiming. FACTOR's contribution plus any other public funding cannot exceed 100% of the project's Total Eligible Budget. See [Glossary: Public Funding](#).
19. FACTOR welcomes and encourages applications from people with disabilities. Please contact your Project Coordinator or our [general information account](#) to discuss options for accommodations throughout the application process, as well as our [Application Accessibility Support Fund](#).

How Applications are Assessed

20. Applications are reviewed for eligibility before being assessed by a jury. Highest-scoring submissions will be recommended for funding to FACTOR's board of directors, with approvals based on available budget. Failure to secure funding should not be considered a reflection of lack of artistic merit or commercial potential.
21. Jurors evaluate the assessment track and whether the Artist Development Plan is clear and achievable, given the artist's resources and what they have accomplished to date. Please see [Business Policies: Assessment Process – Juried Program](#) for more information on the jury process.
22. Processing of applications typically requires 8-10 weeks from the application deadline before notification of outcome but may be affected by volume of applications and juror availability.

How This Program Works

23. This program provides funding support which can be applied toward a broad range of costs incurred over the course of the year (date of application to February 6, 2026) in developing one's artist career.
24. If your application is successful, you will enter into a General Agreement which sets out the terms of the funding. You must also provide your banking information to receive your funding via [direct deposit](#).
25. Once FACTOR's offer of funding has been accepted, all significant changes to one's development plan must be approved by FACTOR to ensure the ongoing eligibility of the project and costs.
26. **Recipient Accessibility Support Fund:** FACTOR funding recipients are eligible for top-up support to their project funding for costs related to accessibility. FACTOR will allow applications in this fund for up to \$5,000 each fiscal year, not to exceed \$5,000 per project. Eligible costs claimed under this fund will be reimbursed at 100%. This fund is open to artists and staff of music companies associated with the project Artist or Applicant. Support for this fund is provided exclusively by Canada's Private Radio Broadcasters. See more details on [FACTOR's Resources page](#).

- a) Receipts must include:
 - i. The name and address of the organization or individual who provided goods or services;

 39. If your project has resulted in releasing new sound recordings during the Artist Development year, you must submit any relevant delivery tracks as part of your Completion, which must meet the same criteria as the [assessment track](#). You are not required to submit a new delivery track if your project does not include sound recording activities.
 40. The delivery track can be the same song you submitted as your assessment track. If you have made no changes, you may upload the exact same recording on Completion.
